**Conference Purpose**

The Northwestern Regional Conference of the Consortium for Computing Sciences in Colleges is designed to promote quality computer-oriented curricula as well as effective use of computing in smaller institutions of higher learning which are typically non-research in orientation.

Because personnel at small colleges often have restricted travel budgets, the scheduling of the conference is done with consideration toward minimizing costs.

**Registration Fees**

The registration fee includes the conference banquet on Friday evening, the luncheon on Saturday, admission to all sessions, and one copy of the conference proceedings.

Conference registration: \$135  
(includes 1-year CCSC membership)

Registration material will be available on the conference website and will also be mailed in August. If you are not currently on our mailing list but would like to be, contact the Registration Chair, Tim Rolfe at trolfe@ewu.edu

**Volunteers Needed**

**Paper Referees**

If you are interested in serving as a paper referee, please contact **Sharon Tuttle** at st10@humboldt.edu for more information.
