Conference Purpose

The Northwestern Regional Conference of the Consortium for Computing Sciences in Colleges is designed to promote quality computer-oriented curricula as well as effective use of computing in smaller institutions of higher learning, which are typically less research-oriented.

Because personnel at small colleges often have restricted travel budgets, the scheduling of the conference is done with consideration toward minimizing costs.

Registration Fees

The registration fee includes the conference banquet on Friday evening, continental breakfast on Saturday, the luncheon on Saturday, admission to all sessions, and one copy of the conference proceedings.

Conference registration: \$135
(includes 1-year CCSC membership)

Registration material will be available on the conference website and mailed in August. If you are not currently on our mailing list but would like to be, contact the Conference Chair, Carol Zander at zander@u.washington.edu
