

**Eighth Annual Northwestern Regional Conference
Consortium for Computing Sciences in Colleges
October 6–7, 2006**

Audio-Visual Request Form

Your presentation room will have an overhead projector, Internet access, and a ceiling-mounted projector with video and audio connections on a table at the front of the room. Upon request, a DVD-capable computer (running Microsoft Windows and the Microsoft Office suite, including PowerPoint) will be provided. You should plan on bringing any additional equipment and software you need for your presentation with you. If travel arrangements make this difficult, please indicate below what you would like supplied for you. Every attempt will be made to meet your requests within available resources, although no promises can be made.

If you have questions about available audio-visual equipment, please contact Site Chair Ray Hamel at rhamel@ewu.edu.
