Preliminary Call for Student Posters

The Northwestern Region seeks to encourage **student research** by providing a forum for students to present the results of their work. We invite **undergraduates**, including those who will complete their Bachelor's degrees in spring 2007, to submit an abstract describing their research or significant project.

Topics may include any computer-related research or significant project activity, either theoretical or applied. A **faculty mentor** must sponsor each proposal.

Students submitting abstracts are invited to participate in a poster session and competition during the conference

A panel of judges will select the top posters for **awards**. The winners will be recognized and receive their awards at the conference luncheon.

Submission details will be posted on the conference web site
