

Newsletter of the Consortium for Computing Sciences in Colleges

May 2007

NEW REGION

The Consortium is excited that a new region is being established in the South West. The first conference will be held April 4-5, 2008, and will be hosted by California State University Northridge. The conference will feature professional papers (note that the deadline for submissions is December 1), panels and tutorial presentations, a student programming contest, and a student poster session. The contact person for conference information is Maria Zack, Professor and Chair, Department of Mathematical, Information and Computer Sciences, Point Loma Nazarene University, 3900 Lomaland Drive San Diego, CA 92106, e-mail mzack@pointloma.edu.

This brings Consortium sponsored conferences to ten per year and pretty well covers the geographic lower 48 states. We're excited about the enthusiasm that is being generated in southern California over this new regional conference.

ACM DIGITAL ARCHIVES

CCSC thanks the ACM for archiving past volumes of the Journal of Computing Sciences in Colleges in the ACM Digital Library. The links on the Consortium web page (<http://ccsc.org/publications/portal/portal.htm>) are to those archives. Links not yet active are to volumes that have not yet been included in the archives. A dash indicates that there was no CCSC conference proceeding for that region in that year.

Note: You need an ACM account to access these documents. If you don't have one you can sign up for a free account, it is simple and easy!

NATIONAL PARTNERS PROGRAM

The Consortium is very happy to have the following as National Partners. If you have the opportunity please thank them for their support of computing in teaching institutions. National Partners are invited to participate in our regional conferences. Visit with their representatives there.
