

Consortium for Computing Sciences in Colleges (CCSC)

National Partners Program

About CCSC

The Consortium for Computing Sciences in Colleges is a non-profit organization focused on promoting quality computer-oriented curricula as well as effective use of computing in institutions of higher learning which are typically non-research in orientation. It supports activities which assist faculty in making appropriate judgments concerning computing resources and educational applications of computer technology.

The Consortium is concerned with the advancement of major programs in both Computer Science and Computer Information Systems, and with the use of computers in the Liberal Arts and Sciences.

CCSC continues to grow and currently sponsors ten regional conferences in ten regions: Northeastern, Eastern, Southeastern, Midwestern, Rocky Mountain, Northwestern, South Central, and Central Plains. CCSC publishes the Journal of Computing Sciences in Colleges. CCSC conferences held in-cooperation with ACM-SIGCSE, and as a result, all issues of the journal will be included in ACM's Digital Library.

Typically faculty who attend these conferences are from mostly undergraduate institutions whose main focus is undergraduate teaching. Attendance has varied based on regions and years, and ranges from 60 to 265 attendees each conference. Over the years, for a vendor registration fee several vendors have attended and displayed at these regional conferences including book vendors and software vendors. As a result of vendor interest in CCSC conferences, CCSC now offers a **National Partners registration** at the base rate of \$2000/year.

Consortium for Computing Sciences in Colleges (CCSC)

National Partners Registration Form

CCSC now offers a **National Partners Registration** at the base rate of \$2000/year. National vendors will be allowed a vendor table at all eight regional conferences during the subsequent 12 months without additional fee. While some conferences are turning away vendors due to limited space, national partners will be given priority and guaranteed a space at all eight regions. National partners will be acknowledged in all issues of the journal and on the CCSC web page at <http://www.ccsc.org>. For more information, contact CCSC National Partners Program Chair Paul D. Wiedemeier, Ph.D. at wiedemeier@ulm.edu.

Company: _____	
Department: _____	
Address: _____	Email: _____
City: _____	Phone: _____
State: _____ Zip _____	
Contact person*:	
Name _____	
Email: _____	
Telephone: _____	

* The contact person is one who is to receive the information on the date and place of each conference and who is to arrange with the local committee for the particular details at each conference.
