

Do you have some interesting experience or research data to share with the computer science educator community? Did you miss the SIGCSE submission deadline? Consider submitting a paper, panel, or tutorial proposal by November 15!

CALL FOR PARTICIPATION  
PAPER SUBMISSION DEADLINE: November 15, 2022  
CCSC:SW

The 16th Annual Conference of the  
Consortium for Computing Sciences in Colleges: Southwest Region  
Friday March 31 and Saturday April 1, 2023  
UC Irvine, Irvine, CA

**Paper Submissions - November 15, 2022**

We invite research studies and experience reports related to computing education in all relevant areas and from K-12 to the university level. Papers should be no longer than six pages, not including references list, single-spaced, single-column layout. Papers may include an appendix but must stand on their own without the appendix. Please see <https://lubaochuan.github.io/ccsc-editor/authors.html> for formatting guidelines.

Papers will be double blind peer reviewed. Authors must omit all references to themselves and their institution in the manuscript and abstract for review. Accepted papers will be presented at the conference and published in The Journal of Computing Sciences in Colleges. If presented by the author, papers will also be available through the ACM Digital Library. Please direct questions to Papers chair, Megan Thomas, at [mthomas@cs.csustan.edu](mailto:mthomas@cs.csustan.edu).

**Panels & Tutorials - December 13, 2022**

We invite you to submit proposals for panels and tutorials related to computing education. In a panel session, 3 or 4 experts (one of whom is the moderator) present their varied perspectives on a specific topic and then discuss those views both amongst themselves and with the audience. In a tutorial, one or more experts give instruction on a topic of interest. For additional information, visit our panels/tutorial page or contact Joshua Gross at [jgross@csumb.edu](mailto:jgross@csumb.edu).

**Lightning Talks - March 7, 2023**

We invite all attendees to submit a proposal for three-minute lightning talks. These talks can include solicitations for collaboration, presentation of novel teaching strategies, or informal presentations on any topic of interest to the community. Work that is being presented as a paper is ineligible for presentation as a lightning talk. For additional information, visit our lightning talk page or contact Paul Cao at [yic242@eng.ucsd.edu](mailto:yic242@eng.ucsd.edu).

**Student Posters - March 12, 2023**

Students are encouraged to submit abstracts for posters to be presented at the conference, describing computing related development or research that the students have recently undertaken. For additional information, visit our student poster page or contact Todd Gibson at [tagibson@csuchico.edu](mailto:tagibson@csuchico.edu) .

For more information, please visit the CCSC:SW website. (<http://www.ccsc.org/southwestern/>)
