</tr>
</tbody>
</table>

---

The CCSC Midwest Conference Committee would like to thank our National Partners (Aldebaran, the National Science Foundation, Carnegie Mellon Information Networking Institute, Oracle Academy, and Turing’s Craft) for their continued support of our activities and UPE for student prizes.

We would like to thank the ACM Special Interest Group in Computer Science Education for providing support for Dr. Joel Adams to present our keynote address “If parallel computing is the new normal, how do we prepare our students (and ourselves)?”

This talk is based on work originally presented at SIGCSE 2014.
